SPECIAL CLASS "C" (PER DIEM) LICENSE AFFIDAVIT

In applying for this Special Class "C" (Per Diem) License it is important that you realize the responsibility that goes with the issuance of the license. All persons or groups using this license as authorized under Sections 4-1202, 4-1208, 4-1209, 24-503, 24-1301, 24-1307, and 24-1308 of the Alcoholic Beverages Article of the Annotated Code of Maryland are covered by all the laws regarding the sale and consumption of alcoholic beverages. Special care should be taken to be sure the following edicts are adhered to:

1. All persons must be 21 years of age or older to sell, purchase, or consume an alcoholic beverage.
2. All sales and the consumption of alcohol must stop promptly at 2:00 a.m.
3. No intoxicated person shall be served any alcoholic beverages.
4. No unnecessary noise or disturbance that could be a nuisance to the community shall occur.
5. The person(s) responsible for the function must see that order and decorum are kept at all times.
6. The application must be completed by three committee members; one member must be a Kent County resident.
7. License must be prominently displayed at the location where alcohol is being served. Failure to comply with the laws of the State of Maryland may make the responsible person(s) subject to a fine.

This license may be issued to a religious, fraternal, civic, veterans', or charitable organization, association, club, or society; or hospital supporting organization. This license shall not be transferred or reassigned.

Cost of a Special Class "C" Per Diem License: **Beer $5.00, Beer and Wine $15.00, and Beer, Wine, and Liquor $25.00.** Make checks payable to: **The County Commissioners of Kent County**, along with the completedapplication.

A BILL ENTITLED CHR 4-2023 RESIDENTIAL SPRINKLER PROPERTY TAX CREDIT EXTENSION

SECTION 1. NOW THEREFORE BE IT ENACTED BY THE COUNTY COMMISSIONERS OF KENT COUNTY, MARYLAND that Chapter 152 Taxation, Article X is hereby amended to extend the expiration date of qualified properties and provisions as follows:

Article X
Residential Sprinkler Property Tax Credit

§ 152-38 Statutory authorization.

Pursuant to authorization contained in § 9-232 of the Tax-Property Article, Annotated Code of Maryland, Kent County may grant, by law a property tax credit against the County property tax imposed on improvements to real property if there is installed in the improvements a complete automatic fire protection sprinkler system, installed in accordance with accepted codes and standards established by the Maryland State Fire Prevention Commission.

§ 152-39 Definitions.

In this article, the following words have the meanings indicated.

QUALIFIED PROPERTIES - Residential properties that:

A. Include a complete automatic fire protection sprinkler system; and

B. Are used as a principal residence of the homeowner; and

C. Have completed construction between January 1, 2020, and December 31, ~~2023~~ **2027**.

§ 152-40 Tax credit granted; expiration of provisions.

A. Kent County grants a tax credit against the County real property tax imposed on qualified properties.

B. The tax credit allowed under this section is the lesser of:

(1) The total cost of the sprinkler system; or

(2) Five thousand dollars.

C. Application of credit:

(1) The amount of the credit applied in a tax year may not exceed the amount of the County property tax imposed on the property in that tax year.

DRAFT

CAPITALS & BOLD INDICATES MATTER ADDED TO EXISTING LAW.
~~Strike through~~ indicates matter deleted from existing law.

(2) Any amount of the credit not taken in the tax year in which the application is granted may be carried over for an additional two years.

D. An application for a tax credit shall be submitted to the Chief Finance Officer on the form that the Chief Finance Officer designates.

E. A tax credit granted under this article may not be transferred to any subsequent owner.

F. This article expires on December 31, ~~2023~~ **2027**.

FLEET STATEMENT OF WORK BETWEEN AXON ENTERPRISE AND AGENCY

Introduction

This Statement of Work ("SOW") has been made and entered into by and between Axon Enterprise, Inc. ("AXON"), and Kent County Sheriff's Office - MD the ("AGENCY") for the purchase of the Axon Fleet in-car video solution ("FLEET") and its supporting information, services and training. (AXON Technical Project Manager/The AXON installer)

Purpose and Intent

AGENCY states, and AXON understands and agrees, that Agency's purpose and intent for entering into this SOW is for the AGENCY to obtain from AXON deliverables, which used solely in conjunction with AGENCY's existing systems and equipment, which AGENCY specifically agrees to purchase or provide pursuant to the terms of this SOW.

This SOW contains the entire agreement between the parties. There are no promises, agreements, conditions, inducements, warranties or understandings, written or oral, expressed or implied, between the parties, other than as set forth or referenced in the SOW.

Acceptance

Upon completion of the services outlined in this SOW, AGENCY will be provided a professional services acceptance form ("Acceptance Form"). AGENCY will sign the Acceptance Form acknowledging that services have been completed in substantial conformance with this SOW and the Agreement. If AGENCY reasonably believes AXON did not complete the professional services in conformance with this SOW, AGENCY must notify AXON in writing of the specific reasons within seven (7) calendar days from delivery of the Acceptance Form. AXON will remedy the issues to conform with this SOW and re-present the Acceptance Form for signature. If AXON does not receive the signed Acceptance Form or written notification of the reasons for rejection within 7 calendar days of the delivery of the Acceptance Form, AGENCY will be deemed to have accepted the services in accordance to this SOW.

Force Majeure

Neither party hereto shall be liable for delays or failure to perform with respect to this SOW due to causes beyond the party's reasonable control and not avoidable by diligence.

Schedule Change

Each party shall notify the other as soon as possible regarding any changes to agreed upon dates and times of Axon Fleet in-car Solution installation-to be performed pursuant of this Statement of Work.

Axon Fleet Deliverables

Typically, within (30) days of receiving this fully executed SOW, an AXON Technical Project Manager will deliver to AGENCY's primary point of contact via electronic media, controlled documentation, guides, instructions and videos followed by available dates for the initial project review and customer readiness validation. Unless otherwise agreed upon by AXON, AGENCY may print and reproduce said documents for use by its employees only.

Security Clearance and Access

Upon AGENCY's request, AXON will provide the AGENCY a list of AXON employees, agents, installers or representatives which require access to the AGENCY's facilities in order to perform Work pursuant of this Statement of Work. AXON will ensure that each employee, agent or representative has been informed or and consented to a criminal background investigation by AGENCY for the purposes of being allowed access to AGENCY's facilities. AGENCY is responsible for providing AXON with all required instructions and documentation accompanying the security background check's requirements.

Training

AXON will provide training applicable to Axon Evidence, Cradlepoint NetCloud Manager and Axon Fleet application in a train-the-trainer style method unless otherwise agreed upon between the AGENCY and AXON.

Local Computer

AGNECY is responsible for providing a mobile data computer (MDC) with the same software, hardware, and configuration that AGENCY personnel will use with the AXON system being installed. AGENCY is responsible for making certain that any and all security settings (port openings, firewall settings, antivirus software, virtual private network, routing, etc.) are made prior to the installation, configuration and testing of the aforementioned deliverables.

Network

AGENCY is responsible for making certain that any and all network(s) route traffic to appropriate endpoints and AXON is not liable for network breach, data interception, or loss of data due to misconfigured firewall settings or virus infection, except to the extent that such virus or infection is caused, in whole or in part, by defects in the deliverables.

Cradlepoint Router

When applicable, AGENCY must provide AXON Installers with temporary administrative access to Cradlepoint's NetCloud Manager to the extent necessary to perform Work pursuant of this Statement of Work.

Evidence.com

AGENCY must provide AXON Installers with temporary administrative access to Axon Evidence.com to the extent necessary to perform Work pursuant of this SOW.

Wireless Upload System

If purchased by the AGENCY, on such dates and times mutually agreed upon by the parties, AXON will install and configure into AGENCY's existing network a wireless network infrastructure as identified in the AGENCY's binding quote based on conditions of the sale.

VEHICLE INSTALLATION

Preparedness

On such dates and times mutually agreed upon by the parties, the AGENCY will deliver all vehicles to an AXON Installer less weapons and items of evidence. Vehicle(s) will be deemed 'out of service' to the extent necessary to perform Work pursuant of this SOW.

Existing Mobile Video Camera System Removal

On such dates and times mutually agreed upon by the parties, the AGENCY will deliver all vehicles to an AXON Installer which will remove from said vehicles all components of the existing mobile video camera system unless otherwise agreed upon by the AGENCY.

Major components will be salvaged by the AXON Installer for auction by the AGENCY. Wires and cables are ~~not~~ considered expendable and will not be salvaged. Salvaged components will be placed in a designated area by the AGENCY within close proximity of the vehicle in an accessible work space.

Prior to removing the existing mobile video camera systems, it is both the responsibility of the AGENCY and the AXON Installer to test the vehicle's systems' operation to identify and operate, documenting any existing component or system failures and in detail, identify which components of the existing mobile video camera system will be removed by the AXON Installer.

In-Car Hardware/Software Delivery and Installation

On such dates and times mutually agreed upon by the parties, the AGENCY will deliver all vehicles to an AXON Installer, who will install and configure in each vehicle in accordance with the specifications detailed in the system's installation manual and its relevant addendum(s). Applicable in-car hardware will be installed and configured as defined and validated by the AGENCY during the pre-deployment discovery process.

If a specified vehicle is unavailable on the date and time agreed upon by the parties, AGENCY will provide a similar vehicle for the installation process. Delays due to a vehicle, or substitute vehicle, not being available at agreed upon dates and times may results in additional fees to the AGENCY. If the AXON Installer determines that a vehicle is not properly prepared for installation ("Not Fleet Ready"), such as a battery not being properly charged or properly up-fit for in-service, field operations, the issue shall be reported immediately to the AGENCY for resolution and a date and time for the future installation shall be agreed upon by the parties.

Upon completion of installation and configuration, AXON will systematically test all installed and configured in-car hardware and software to ensure that ALL functions of the hardware and software are fully operational and that any deficiencies are corrected unless otherwise agreed upon by the AGENCY, installation, configuration, test and the correct of any deficiencies will be completed in each vehicle accepted for installation.

Prior to installing the Axon Fleet camera systems, it is both the responsibility of the AGENCY and the AXON Installer to test the vehicle's existing systems' operation to identify, document any existing component or vehicle systems' failures. Prior to any vehicle up-fitting the AXON Installer will introduce the system's components, basic functions, integrations and systems overview along with reference to AXON approved, AGENCY manuals, guides, portals and videos. It is both the responsibility of the AGENCY and the AXON Installer to agree on placement of each components, the antenna(s), integration recording trigger sources and customer preferred power, ground and ignition sources prior to permanent or temporary installation of an Axon Fleet camera solution in each vehicle type. Agreed placement will be documented by the AXON Installer.

AXON welcomes up to 5 persons per system operation training session per day, and unless otherwise agreed upon by the AGENCY, the first vehicle will be used for an installation training demonstration. The second vehicle will be used for an assisted installation training demonstration. The installation training session is customary to any AXON Fleet installation service regardless of who performs the continued Axon Fleet system installations.

The customary training session does not 'certify' a non-AXON Installer, customer-employed Installer or customer 3rd party Installer, since the AXON Fleet products does not offer an Installer certification program. Any work performed by non-AXON Installer, customer-employed Installer or customer 3rd party Installer is not warrantied by AXON, and AXON is not liable for any damage to the vehicle and its existing systems and AXON Fleet hardware.

Standard Terms and Conditions

Axon Enterprise Inc. Sales Terms and Conditions

Axon Master Services and Purchasing Agreement:

This Quote is limited to and conditional upon your acceptance of the provisions set forth herein and Axon's Master Services and Purchasing Agreement (posted at www.axon.com/legal/sales-terms-and-conditions), as well as the attached Statement of Work (SOW) for Axon Fleet and/or Axon Interview Room purchase, if applicable. In the event you and Axon have entered into a prior agreement to govern all future purchases, that agreement shall govern to the extent it includes the products and services being purchased and does not conflict with the Axon Customer Experience Improvement Program Appendix as described below.

ACEIP:

The Axon Customer Experience Improvement Program Appendix, which includes the sharing of de-identified segments of Agency Content with Axon to develop new products and improve your product experience (posted at www.axon.com/legal/sales-terms-and-conditions), is incorporated herein by reference. By signing below, you agree to the terms of the Axon Customer Experience Improvement Program.

Acceptance of Terms:

Any purchase order issued in response to this Quote is subject solely to the above referenced terms and conditions. By signing below, you represent that you are lawfully able to enter into contracts. If you are signing on behalf of an entity (including but not limited to the company, municipality, or government agency for whom you work), you represent to Axon that you have legal authority to bind that entity. If you do not have this authority, please do not sign this Quote.

To: United States state, local and municipal law enforcement agencies

Re: Sole Source Letter for Axon Enterprise, Inc.'s Axon brand products and Axon Evidence (Evidence.com) Data Management Solutions[1]

A sole source justification exists because the following goods and services required to satisfy the agency's needs are only manufactured and available for purchase from Axon Enterprise.

Axon Digital Evidence Solution Description

Axon Body 3 Video Camera (DVR)

- Improved video quality with reduced motion blur and better low-light performance
- Multi-mic audio—four built-in microphones
- Wireless upload option
- Gunshot detection and alerts
- Streaming audio and video capability
- "Find my camera" feature
- Verbal transcription with Axon Records (coming soon)
- End-to-end encryption
- Twelve-hour battery
- Up to 120-second buffering period to record footage before pressing record button

Axon Flex 2 Video Camera

- Video playback on mobile devices in the field via Bluetooth pairing
- Retina Low Light capability sensitive to less than 0.1 lux
- Audio tones to alert user of usage
- Low SD, high SD, low HD, and high HD resolution (customizable by the agency)
- Up to 120-second buffering period to record footage before pressing record button
- Multiple mounting options using magnetic attachment: head, collar, shoulder, helmet, ball cap, car dash, and Oakley sunglass mounts available
- 120-degree diagonal field of view camera lens, 102-degree horizontal field of view, and 55-degree vertical field of view

Axon Flex 2 Controller

- 12+ hours of battery operation per shift (even in recording mode)
- LED lights to show current battery level and operating mode
- Haptic notification available
- Tactical beveled button design for use in pocket
- Compatible with Axon Signal technology

Axon Air System

- Purpose-built solution for law enforcement UAV programs
- Supported applications on iOS and Android

[1] Axon is also the sole developer and offeror of the Evidence.com data management services. Evidence.com is both a division of Axon and a data management product solution offered by Axon. Evidence.com is not a separate corporate entity.

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

- Automated tracking of pilot, aircraft, and flight logs
- Unlimited Storage of UAV data in Axon Evidence (Evidence.com)
- In application ingestion of data in Axon Evidence (Evidence.com)
- Axon Aware integration for live streaming and situational awareness

Axon Body 2 Video Camera

- Video playback on mobile devices in the field via Bluetooth pairing
- Retina Low Light capability sensitive to less than 1 lux
- Audio tones and haptic (vibration) notification to alert user of usage
- Audio mute during event option
- Wi-Fi capability
- High, medium, and low quality recording available (customizable by the agency)
- Up to 2-minute buffering period to record footage before pressing record button
- Multiple mounting options using holster attachment: shirt, vest, belt, and dash mounts available
- 12+ hours of battery operation per shift (even in recording mode)
- LED lights to show current battery level and operating mode
- 143-degree lens
- Includes Axon Signal technology

Axon Fleet 3 Camera

- High-definition Dual-View Camera with panoramic field of view, 12x zoom, and AI processing for automatic license plate reader (ALPR)
- High-definition Interior Camera with infrared illumination for back seat view in complete darkness
- Wireless Mic and Charging Base for capturing audio when outside of vehicle
- Fleet Hub with connectivity, global navigation satellite system (GNSS), secure solid-state storage, and Signal inputs
- Automatic transition from Buffering to Event mode with configurable Signals
- Video Recall records last 24 hours of each camera in case camera not activated for an event
- Intuitive mobile data terminal app, Axon Dashboard, for controlling system, reviewing video, quick tagging, and more
- Ability to efficiently categorize, play back and share all video and audio alongside other digital files on Evidence.com
- Multi-cam playback, for reviewing up to four videos, including body-worn and in-car footage, at the same time
- Fully integrated with Evidence.com services and Axon devices
- Automatic time synchronization with all Axon Fleet and other Axon on-officer cameras allows for multi-camera playback on Evidence.com.
- Prioritized upload to Evidence.com of critical event videos via 4G/LTE
- Wireless alerts from the TASER CEW Signal Performance Power Magazine (SPPM) and Signal Side Arm (SSA).
- Best-in-class install times, wireless updates and quick remote troubleshooting
- Optional Axon Aware live stream, alerts, and location updates for situational awareness
- Optional Axon ALPR hotlist alerts, plate read retention, and investigative search

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

Axon Fleet 2 Camera

- Fully integrated with Axon Evidence services and Axon devices
- Automatic time synchronization with other Axon Fleet and Axon on-officer cameras allows for multi-camera playback on Axon Evidence.
- Immediate upload to Axon Evidence of critical event videos via 4G/LTE
- Wireless alerts from the TASER CEW Signal Performance Power Magazine (SPPM).
- Automatic transition from BUFFERING to EVENT mode in an emergency vehicle equipped with the Axon Signal Unit
- Decentralized system architecture without a central digital video recorder (DVR).
- Cameras that function independently and communicate wirelessly with the computer in the vehicle (MDT, MDC, MDU) for reviewing, tagging and uploading video.
- Wireless record alert based on Bluetooth communication from Axon Signal Vehicle when a configured input is enabled (e.g. emergency light, siren, weapon rack, etc.).
- Receives alerts from Axon Signal Sidearm.
- Plug-And-Play design allowing for cameras to be easily replaced and upgraded.
- Ability for an unlimited number of agency vehicles recording in the same vicinity with an Axon Fleet system to be automatically associated with one another when reviewing video in the video management platform. This feature is also supported across body cameras.

Axon Signal Unit (ASU)

- Communications device that can be installed in emergency vehicles.
- With emergency vehicle light bar activation, or other activation triggers, the Axon Signal Unit sends a signal. Upon processing the signal, an Axon system equipped with Axon Signal technology transitions from the BUFFERING to EVENT mode.

Axon Signal Performance Power Magazine (SPPM)

- Battery pack for the TASER X2 and X26P conducted electrical weapons
- Shifting the safety switch from the down (SAFE) to the up (ARMED) positions sends a signal from the SPPM. Upon processing the signal, an Axon system equipped with Axon Signal technology transitions from the BUFFERING to EVENT mode. Axon Signal technology only works with Axon cameras.

Axon Signal Sidearm Sensor

- Can be installed on common duty holsters
- Drawing a service handgun from the holster sends a signal from the Axon Signal Sidearm sensor. Upon processing the signal, an Axon system equipped with Axon Signal technology transitions from the BUFFERING to EVENT mode.

Axon Interview Solution

- High-definition cameras and microphones for interview rooms
- Covert or overt camera installations
- Touch-screen user interface
- Motion-based activation
- Up to 7-minute pre- and post-event buffering period
- Full hardware and software integration
- Upload to Axon Evidence services
- Interview room files can be managed under the same case umbrella as files from Axon on-officer cameras and Axon Fleet cameras; i.e., Axon video of an arrest and

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

interview room video are managed as part of the same case in Axon Evidence
- Dual integration of on-officer camera and interview room camera with Axon Evidence digital evidence solution

Axon Signal Technology
- Sends a broadcast of status that compatible devices recognize when certain status changes are detected
- Only compatible with TASER and Axon products

Axon Dock
- Automated docking station uploads to Axon Evidence services through Internet connection
- No computer necessary for secure upload to Axon Evidence
- Charges and uploads simultaneously
- The Axon Dock is tested and certified by TUV Rheinland to be in compliance with UL 60950-1: 2007 R10.14 and CAN/ CSA-C22.2 N0.60950-I-07+AI:2011+A2:2014 Information Technology Equipment safety standards.

Axon Evidence Data Management System
- Software as a Service (SaaS) delivery model that allows agencies to manage and share digital evidence without local storage infrastructure or software needed
- SaaS model reduces security and administration by local IT staff: no local installation required
- Automatic, timely security upgrades and enhancements deployed to application without the need for any local IT staff involvement
- Securely share digital evidence with other agencies or prosecutors without creating copies or requiring the data to leave your agency's domain of control
- Controlled access to evidence based on pre-defined roles and permissions and pre-defined individuals
- Password authentication includes customizable security parameters: customizable password complexity, IP-based access restrictions, and multi-factor authentication support
- Automated category-based evidence retention policies assists with efficient database management
- Ability to recover deleted evidence within seven days of deletion
- Stores and supports all major digital file types: .mpeg, .doc, .pdf, .jpeg, etc.
- Requires NO proprietary file formats
- Ability to upload files directly from the computer to Axon Evidence via an Internet browser
- Data Security: Robust Transport Layer Security (TLS) implementation for data in transit and 256-bit AES encryption for data in storage
- Security Testing: Independent security firms perform in-depth security and penetration testing
- Reliability: Fault- and disaster-tolerant infrastructure in at least 4 redundant data centers in both the East and West regions of the United States
- Chain-of-Custody: Audit logs automatically track all system and user activity. These logs cannot be edited or deleted, even by account administrators and IT staff
- Protection: With no on-site application, critical evidence stored in Axon Evidence is protected from local malware that may penetrate agency infrastructure

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

- Stability: Axon Enterprise is a publicly traded company with stable finances and funding, reducing concerns of loss of application support or commercial viability
- Application and data protected by a CJIS and ISO 27001 compliant information security program
- Dedicated information security department that protects Axon Evidence and data with security monitoring, centralized event log analysis and correlation, advanced threat and intrusion protection, and incident response capabilities
- Redact videos easily within the system, create tags, markers and clips, search 7 fields in addition to 5 category-based fields, create cases for multiple evidence files

Axon Evidence for Prosecutors

- All the benefits of the standard Axon Evidence services
- Ability to share information during the discovery process
- Standard licenses available for free to prosecutors working with agencies already using Axon Evidence services
- Unlimited storage for data collected by Axon cameras and Axon Capture

Attorney Premier

- All the benefits Axon Evidence for Prosecutors
- Purpose-built user interface optimizes evidence management, review functionalities, and case relevant information
- Unlimited AI transcription of playable video and audio files
- Native image and PDF redaction software
- Ability to natively play a wide variety of 3rd party video codecs (CCTV) and extract file into an MP4
- Ability to obtain evidence directly from members of the community via secure web link
- Unlimited storage and data collected and shared by Axon partner agencies via Axon Evidence (Evidence.com)
- Available unlimited 3rd party data source storage plan
- Pro Licenses – all users have access to pro license features, including the Redaction Studio, Transcription Assistant, and Multi-Cam, and Reporting functionalities
- Transcription is Unlimited and automatic (i.e. all videos ingested into Attorney Premier are automatically transcribed)
- Discovery module designed to optimize all aspects of discovery management

Axon Capture Application

- Free app for iOS and Android mobile devices
- Allows users to capture videos, audio recordings, and photos and upload these files to their Axon Evidence account from the field
- Allows adding metadata to these files, such as: Category, Title, Case ID, and GPS data

Axon Commander Services

- On-premises data management platform
- Chain of custody reports with extensive audit trail
- Automated workflows, access control, storage, and retention
- Compatible with multiple file formats

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

Axon View Application

- Free app for iOS and Android mobile devices
- Allows user to view the camera feed from a paired Axon Body, Axon Body 2, Axon Flex, or Axon Flex 2 camera in real-time
- Allows for playback of videos stored on a paired Axon Body, Axon Body 2, Axon Flex, or Axon Flex 2 system
- Allows adding meta-data to videos, such as: Category, Title, Case ID, and GPS data

Axon Records

- Continuously improving automated report writing by leveraging AI and ML on officer recorded video, photo, and audio from BWC, In-Car, Mobile App (Axon Capture), or other digital media
- Collaborative report writing through instantly synced workspaces allowing officers to delegate information gathering on scene
- Instant access to records allowing detectives to begin their investigation and records clerks to update information exchanges on things like missing people or stolen property as soon as possible
- Complete leveraging of Axon Evidence sharing to allow fast, efficient, digital, and secure sharing of records and cases to DAs and Prosecutors
- Robust API and SDK allows data to be easily ingested and pushed out to other systems—preventing data silos
- Deep integration with Axon Evidence putting video at the heart of the record and automating the process of tagging and categorizing digital evidence stored in Axon Evidence
- Automatic association of digital evidence to the record and incident through Axon Evidence integration
- In context search of master indexes (people, vehicles, locations, charges)—promoting efficient report writing through prefilling of existing data which promotes clean and deduped data in the system
- Quick views for users to track calls for service and reports in draft, ready for review, kicked back for further information, or submitted to Records for archiving.
- Federal and State IBRS fields are captured and validated—ensuring the officer knows what fields to fill and what information needs to be captured
- Intuitive validation ensures officers know what information to submit without being burdened by understanding the mapping of NIBRS to state or local crime codes
- Ability to create custom forms and add custom fields to incident reports—allowing your agency to gather the information you find valuable
- Software as a Service (SaaS) delivery model that allows agencies to write, manage, and share digital incident reports without local storage infrastructure or software needed
- SaaS model reduces security and administration by local IT staff: no local installation required
- Automatic, timely security upgrades and enhancements deployed to application without the need for any local IT staff involvement
- Securely share records and cases with other agencies or prosecutors without creating copies or requiring the data to leave your agency's domain of control
- Controlled access based on pre-defined users, groups, and permissions
- Password authentication includes customizable security parameters: customizable

17800 N 85TH STREET

AXON.COM

password complexity, IP-based access restrictions, and multi-factor authentication support
- Security Testing: Independent security firms perform in-depth security and penetration testing
- Reliability: Fault- and disaster-tolerant infrastructure in at least 4 redundant data centers in both the East and West regions of the United States
- Chain-of-Custody: Audit logs automatically track all system and user activity. These logs cannot be edited or deleted, even by account administrators and IT staff

Axon Standards
- Internal affairs and professional standards reporting
- Customizable information display, including custom forms
- Customizable workflows and user groups
- Automated alerts
- Compatible with digital documents, photos, and videos
- Connection with Transcription (beta)
- Shared Index with evidence.com and Records
- Data Warehouse allowing custom summary reports and integration into 3rd party analytic tools.
- Workflow analytics to provide SLA on throughputs
- Integration with the TASER 7 CEW for automatically pulling firing logs (alpha)
- Available as an option for Axon Records
- Automatically bundled with Officer Safety Plan 7+

Axon Professional Services
- Dedicated implementation team
- Project management and deployment best practices aid
- Training and train-the-trainer sessions
- Integration services with other systems

Axon Auto-Transcribe
- Transcribes audio to text, producing a time-synchronized transcript of incidents
- Allows searches for keywords (e.g., names, and addresses)
- Embedded time stamps when critical details were said and events occurred
- Produce transcripts in substantially less time than with manual methods
- Pull direct quotes and witness statements directly into reports

Axon Support Engineer:
- Dedicated Axon Regional/Resident Support Engineer Services
- Quarterly onsite visits
- Solution and Process Guidance custom to your agency
- White-Glove RMA and TAP (if applicable) Service for devices
- Monthly Product Usage Analysis
- Resident Support Engineer also includes onsite product maintenance, troubleshooting, and beta testing assistance

Axon Respond for Dispatch (CAD)
- Integration with Axon Respond for Devices (Axon Body 3) for location and/or live

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

streaming in CAD.

- Integration with TASER 7 CEW devices for enhanced situational awareness.
- Native ESRI based mapping with ability to connect to ESRI online communities and your agency's local ArcGIS data.
- SaaS model reduces security and administration by local IT staff: no local installation
- Robust API and SDK allows data to be easily ingested and pushed out to other systems -- preventing data silos.
- Complete leveraging of Axon Evidence (evidence.com) sharing to allow fast, efficient, digital and secure sharing of data to DAs and Prosecutors.
- Future versions/enhancements included with minimal down time and no need to purchase an upgrade to the latest version.
- Native integration with Axon Records.
- Reliability: Fault – and disaster – tolerant infrastructure in at least four redundant data centers in both the East and West regions of the United States.
- Security Testing: Independent security firms perform in depth security and penetration testing.
- Automatic, timely security upgrades and enhancements deployed to application without the need for any local IT staff involvement.

Axon Investigate

- Video analysis software
- Compatible with video from cell phones, on-officer cameras, in-car camera systems, social media, and other sources
- Oriented to investigators and prosecutors
- Integration with Axon Evidence services
- Automatically identify video file codecs, formats, hash values, and other metadata
- Automatically determine the required codec necessary to play a wide variety of video formats
- Play forwards/backwards and fast forward through almost any video file
- Scrub forwards/backwards through almost any video file
- Mark and auto export an unlimited number of tagged video frames
- Create subclips from any readable media
- Batch transcode files to standard file formats (including uncompressed, lossless h.264, wmv, and more)
- Add filters to transcode workflow (including resize, deinterlace, pad, crop, blur, concatenate, etc.)
- Provide enhancement capabilities, such as stabilization, brightness adjustments, and frame averaging
- Produce dynamic frame analysis spreadsheets to xml documents
- Validate results compared with hexadecimal analysis tools
- Build and share workflows with other users
- Transcode files directly to Avid Media Composer projects
- Identify duplicate files in any folder based on md5 hash
- Produce detailed written reports via interactive PDF with embedded video and image content within iNPUT-ACE
- Extract I-frames
- Decimate

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

- Canvas Editor (picture-in-picture)
- Add raw FFmpeg arguments
- Perform four types of macroblock analysis
  - 4x4 prediction removed
  - 8x8 prediction removed
  - Color coded block types
  - Quantization parameter evaluation
- Offered iNPUT-ACE Software (from Axon Enterprise)
- Variable frame rate (VFR) lightboard designed to accurately calculate time and vehicle speed from any video surveillance camera. This feature is designed to eliminate common errors that might occur during calculations based on frame rate.
- Camera match overlay tool that provides margin of error reports based on scanner, calibration, and resolution accuracy (e.g., a margin of error of +0.5 feet) for data collected from footage.

Axon Justice

- Productivity tool for prosecutors and defense attorneys
- Streamlined evidence management
- Unlimited Auto-Transcribe for audio and video
- Discovery workflows, fully integrated with Axon Evidence services
- Axon Evidence conversion and playback tools for third-party video, including body-worn, in-car, interview room, and CCTV video
- Chain of custody reports with extensive audit trail
- Free sharing with partners
- Customer-defined data retention policies

Axon Customer Support

- Online and email-based support available 24/7
- Human phone-based support available Monday–Friday 7:00 AM–5:00 PM MST; support is located in Scottsdale, AZ, USA
- Library of webinars available 24/7
- Remote-location troubleshooting

FLEET STATEMENT OF WORK BETWEEN AXON ENTERPRISE AND AGENCY

Introduction

This Statement of Work ("SOW") has been made and entered into by and between Axon Enterprise, Inc. ("AXON"), and Kent County Sheriff's Office - MD the ("AGENCY") for the purchase of the Axon Fleet in-car video solution ("FLEET") and its supporting information, services and training. (AXON Technical Project Manager/The AXON installer)

Purpose and Intent

AGENCY states, and AXON understands and agrees, that Agency's purpose and intent for entering into this SOW is for the AGENCY to obtain from AXON deliverables, which used solely in conjunction with AGENCY's existing systems and equipment, which AGENCY specifically agrees to purchase or provide pursuant to the terms of this SOW.

This SOW contains the entire agreement between the parties. There are no promises, agreements, conditions, inducements, warranties or understandings, written or oral, expressed or implied, between the parties, other than as set forth or referenced in the SOW.

Acceptance

Upon completion of the services outlined in this SOW, AGENCY will be provided a professional services acceptance form ("Acceptance Form"). AGENCY will sign the Acceptance Form acknowledging that services have been completed in substantial conformance with this SOW and the Agreement. If AGENCY reasonably believes AXON did not complete the professional services in conformance with this SOW, AGENCY must notify AXON in writing of the specific reasons within seven (7) calendar days from delivery of the Acceptance Form. AXON will remedy the issues to conform with this SOW and re-present the Acceptance Form for signature. If AXON does not receive the signed Acceptance Form or written notification of the reasons for rejection within 7 calendar days of the delivery of the Acceptance Form, AGENCY will be deemed to have accepted the services in accordance to this SOW.

Force Majeure

Neither party hereto shall be liable for delays or failure to perform with respect to this SOW due to causes beyond the party's reasonable control and not avoidable by diligence.

Schedule Change

Each party shall notify the other as soon as possible regarding any changes to agreed upon dates and times of Axon Fleet in-car Solution installation to be performed pursuant of this Statement of Work.

Axon Fleet Deliverables

Typically, within (30) days of receiving this fully executed SOW, an AXON Technical Project Manager will deliver to AGENCY's primary point of contact via electronic media, controlled documentation, guides, instructions and videos followed by available dates for the initial project review and customer readiness validation. Unless otherwise agreed upon by AXON, AGENCY may print and reproduce said documents for use by its employees only.

Security Clearance and Access

Upon AGENCY's request, AXON will provide the AGENCY a list of AXON employees, agents, installers or representatives which require access to the AGENCY's facilities in order to perform Work pursuant of this Statement of Work. AXON will ensure that each employee, agent or representative has been informed or and consented to a criminal background investigation by AGENCY for the purposes of being allowed access to AGENCY's facilities. AGENCY is responsible for providing AXON with all required instructions and documentation accompanying the security background check's requirements.

Training

AXON will provide training applicable to Axon Evidence, Cradlepoint NetCloud Manager and Axon Fleet application in a train-the-trainer style method unless otherwise agreed upon between the AGENCY and AXON.

Local Computer

AGNECY is responsible for providing a mobile data computer (MDC) with the same software, hardware, and configuration that AGENCY personnel will use with the AXON system being installed. AGENCY is responsible for making certain that any and all security settings (port openings, firewall settings, antivirus software, virtual private network, routing, etc.) are made prior to the installation, configuration and testing of the aforementioned deliverables.

Network

AGENCY is responsible for making certain that any and all network(s) route traffic to appropriate endpoints and AXON is not liable for network breach, data interception, or loss of data due to misconfigured firewall settings or virus infection, except to the extent that such virus or infection is caused, in whole or in part, by defects in the deliverables.

Cradlepoint Router

When applicable, AGENCY must provide AXON Installers with temporary administrative access to Cradlepoint's NetCloud Manager to the extent necessary to perform Work pursuant of this Statement of Work.

Evidence.com

AGENCY must provide AXON Installers with temporary administrative access to Axon Evidence.com to the extent necessary to perform Work pursuant of this SOW.

Wireless Upload System

If purchased by the AGENCY, on such dates and times mutually agreed upon by the parties, AXON will install and configure into AGENCY's existing network a wireless network infrastructure as identified in the AGENCY's binding quote based on conditions of the sale.

VEHICLE INSTALLATION

Preparedness

On such dates and times mutually agreed upon by the parties, the AGENCY will deliver all vehicles to an AXON Installer less weapons and items of evidence. Vehicle(s) will be deemed 'out of service' to the extent necessary to perform Work pursuant of this SOW.

Existing Mobile Video Camera System Removal

On such dates and times mutually agreed upon by the parties, the AGENCY will deliver all vehicles to an AXON Installer which will remove from said vehicles all components of the existing mobile video camera system unless otherwise agreed upon by the AGENCY.

Major components will be salvaged by the AXON Installer for auction by the AGENCY. Wires and cables are ~~not~~ considered expendable and will not be salvaged. Salvaged components will be placed in a designated area by the AGENCY within close proximity of the vehicle in an accessible work space.

Prior to removing the existing mobile video camera systems, it is both the responsibility of the AGENCY and the AXON Installer to test the vehicle's systems' operation to identify and operate, documenting any existing component or system failures and in detail, identify which components of the existing mobile video camera system will be removed by the AXON Installer.

In-Car Hardware/Software Delivery and Installation

On such dates and times mutually agreed upon by the parties, the AGENCY will deliver all vehicles to an AXON Installer, who will install and configure in each vehicle in accordance with the specifications detailed in the system's installation manual and its relevant addendum(s). Applicable in-car hardware will be installed and configured as defined and validated by the AGENCY during the pre-deployment discovery process.

If a specified vehicle is unavailable on the date and time agreed upon by the parties, AGENCY will provide a similar vehicle for the installation process. Delays due to a vehicle, or substitute vehicle, not being available at agreed upon dates and times may results in additional fees to the AGENCY. If the AXON Installer determines that a vehicle is not properly prepared for installation ("Not Fleet Ready"), such as a battery not being properly charged or properly up-fit for in-service, field operations, the issue shall be reported immediately to the AGENCY for resolution and a date and time for the future installation shall be agreed upon by the parties.

Upon completion of installation and configuration, AXON will systematically test all installed and configured in-car hardware and software to ensure that ALL functions of the hardware and software are fully operational and that any deficiencies are corrected unless otherwise agreed upon by the AGENCY, installation, configuration, test and the correct of any deficiencies will be completed in each vehicle accepted for installation.

Prior to installing the Axon Fleet camera systems, it is both the responsibility of the AGENCY and the AXON Installer to test the vehicle's existing systems' operation to identify, document any existing component or vehicle systems' failures. Prior to any vehicle up-fitting the AXON Installer will introduce the system's components, basic functions, integrations and systems overview along with reference to AXON approved, AGENCY manuals, guides, portals and videos. It is both the responsibility of the AGENCY and the AXON Installer to agree on placement of each components, the antenna(s), integration recording trigger sources and customer preferred power, ground and ignition sources prior to permanent or temporary installation of an Axon Fleet camera solution in each vehicle type. Agreed placement will be documented by the AXON Installer.

AXON welcomes up to 5 persons per system operation training session per day, and unless otherwise agreed upon by the AGENCY, the first vehicle will be used for an installation training demonstration. The second vehicle will be used for an assisted installation training demonstration. The installation training session is customary to any AXON Fleet installation service regardless of who performs the continued Axon Fleet system installations.

The customary training session does not ‘certify’ a non-AXON Installer, customer-employed Installer or customer 3rd party Installer, since the AXON Fleet products does not offer an Installer certification program. Any work performed by non-AXON Installer, customer-employed Installer or customer 3rd party Installer is not warrantied by AXON, and AXON is not liable for any damage to the vehicle and its existing systems and AXON Fleet hardware.

Standard Terms and Conditions

Axon Enterprise Inc. Sales Terms and Conditions

Axon Master Services and Purchasing Agreement:

This Quote is limited to and conditional upon your acceptance of the provisions set forth herein and Axon's Master Services and Purchasing Agreement (posted at www.axon.com/legal/sales-terms-and-conditions), as well as the attached Statement of Work (SOW) for Axon Fleet and/or Axon Interview Room purchase, if applicable. In the event you and Axon have entered into a prior agreement to govern all future purchases, that agreement shall govern to the extent it includes the products and services being purchased and does not conflict with the Axon Customer Experience Improvement Program Appendix as described below.

ACEIP:

The Axon Customer Experience Improvement Program Appendix, which includes the sharing of de-identified segments of Agency Content with Axon to develop new products and improve your product experience (posted at www.axon.com/legal/sales-terms-and-conditions), is incorporated herein by reference. By signing below, you agree to the terms of the Axon Customer Experience Improvement Program.

Acceptance of Terms:

Any purchase order issued in response to this Quote is subject solely to the above referenced terms and conditions. By signing below, you represent that you are lawfully able to enter into contracts. If you are signing on behalf of an entity (including but not limited to the company, municipality, or government agency for whom you work), you represent to Axon that you have legal authority to bind that entity. If you do not have this authority, please do not sign this Quote.

The Vendor and Sourcewell have entered into an Agreement (Contract #010720-AXN) for the procurement of Public Safety Video Surveillance Solutions with Related Equipment, Software and Accessories. This Agreement has an expiration date of February 21, 2024, but the parties may extend the Agreement for one additional year by mutual consent.

The parties acknowledge that extending the Agreement for another year benefits the Vendor, Sourcewell and Sourcewell's members. The Vendor and Sourcewell therefore agree to extend the Agreement listed above for a fifth year. This existing Agreement will terminate on February 21, 2025. All other terms and conditions of the Agreement remain in force.

FLEET STATEMENT OF WORK BETWEEN AXON ENTERPRISE AND AGENCY

Introduction

This Statement of Work ("SOW") has been made and entered into by and between Axon Enterprise, Inc. ("AXON"), and Kent County Sheriff's Office - MD the ("AGENCY") for the purchase of the Axon Fleet in-car video solution ("FLEET") and its supporting information, services and training. (AXON Technical Project Manager/The AXON installer)

Purpose and Intent

AGENCY states, and AXON understands and agrees, that Agency's purpose and intent for entering into this SOW is for the AGENCY to obtain from AXON deliverables, which used solely in conjunction with AGENCY's existing systems and equipment, which AGENCY specifically agrees to purchase or provide pursuant to the terms of this SOW.

This SOW contains the entire agreement between the parties. There are no promises, agreements, conditions, inducements, warranties or understandings, written or oral, expressed or implied, between the parties, other than as set forth or referenced in the SOW.

Acceptance

Upon completion of the services outlined in this SOW, AGENCY will be provided a professional services acceptance form ("Acceptance Form"). AGENCY will sign the Acceptance Form acknowledging that services have been completed in substantial conformance with this SOW and the Agreement. If AGENCY reasonably believes AXON did not complete the professional services in conformance with this SOW, AGENCY must notify AXON in writing of the specific reasons within seven (7) calendar days from delivery of the Acceptance Form. AXON will remedy the issues to conform with this SOW and re-present the Acceptance Form for signature. If AXON does not receive the signed Acceptance Form or written notification of the reasons for rejection within 7 calendar days of the delivery of the Acceptance Form, AGENCY will be deemed to have accepted the services in accordance to this SOW.

Force Majeure

Neither party hereto shall be liable for delays or failure to perform with respect to this SOW due to causes beyond the party's reasonable control and not avoidable by diligence.

Schedule Change

Each party shall notify the other as soon as possible regarding any changes to agreed upon dates and times of Axon Fleet in-car Solution installation to be performed pursuant of this Statement of Work.

Axon Fleet Deliverables

Typically, within (30) days of receiving this fully executed SOW, an AXON Technical Project Manager will deliver to AGENCY's primary point of contact via electronic media, controlled documentation, guides, instructions and videos followed by available dates for the initial project review and customer readiness validation. Unless otherwise agreed upon by AXON, AGENCY may print and reproduce said documents for use by its employees only.

Security Clearance and Access

Upon AGENCY's request, AXON will provide the AGENCY a list of AXON employees, agents, installers or representatives which require access to the AGENCY's facilities in order to perform Work pursuant of this Statement of Work. AXON will ensure that each employee, agent or representative has been informed or and consented to a criminal background investigation by AGENCY for the purposes of being allowed access to AGENCY's facilities. AGENCY is responsible for providing AXON with all required instructions and documentation accompanying the security background check's requirements.

Training

AXON will provide training applicable to Axon Evidence, Cradlepoint NetCloud Manager and Axon Fleet application in a train-the-trainer style method unless otherwise agreed upon between the AGENCY and AXON.

Local Computer

AGNECY is responsible for providing a mobile data computer (MDC) with the same software, hardware, and configuration that AGENCY personnel will use with the AXON system being installed. AGENCY is responsible for making certain that any and all security settings (port openings, firewall settings, antivirus software, virtual private network, routing, etc.) are made prior to the installation, configuration and testing of the aforementioned deliverables.

Network

AGENCY is responsible for making certain that any and all network(s) route traffic to appropriate endpoints and AXON is not liable for network breach, data interception, or loss of data due to misconfigured firewall settings or virus infection, except to the extent that such virus or infection is caused, in whole or in part, by defects in the deliverables.

Cradlepoint Router

When applicable, AGENCY must provide AXON Installers with temporary administrative access to Cradlepoint's NetCloud Manager to the extent necessary to perform Work pursuant of this Statement of Work.

Evidence.com

AGENCY must provide AXON Installers with temporary administrative access to Axon Evidence.com to the extent necessary to perform Work pursuant of this SOW.

Wireless Upload System

If purchased by the AGENCY, on such dates and times mutually agreed upon by the parties, AXON will install and configure into AGENCY's existing network a wireless network infrastructure as identified in the AGENCY's binding quote based on conditions of the sale.

VEHICLE INSTALLATION

Preparedness

On such dates and times mutually agreed upon by the parties, the AGENCY will deliver all vehicles to an AXON Installer less weapons and items of evidence. Vehicle(s) will be deemed 'out of service' to the extent necessary to perform Work pursuant of this SOW.

Existing Mobile Video Camera System Removal

On such dates and times mutually agreed upon by the parties, the AGENCY will deliver all vehicles to an AXON Installer which will remove from said vehicles all components of the existing mobile video camera system unless otherwise agreed upon by the AGENCY.

Major components will be salvaged by the AXON Installer for auction by the AGENCY. Wires and cables are ~~not~~ considered expendable and will not be salvaged. Salvaged components will be placed in a designated area by the AGENCY within close proximity of the vehicle in an accessible work space.

Prior to removing the existing mobile video camera systems, it is both the responsibility of the AGENCY and the AXON Installer to test the vehicle's systems' operation to identify and operate, documenting any existing component or system failures and in detail, identify which components of the existing mobile video camera system will be removed by the AXON Installer.

In-Car Hardware/Software Delivery and Installation

On such dates and times mutually agreed upon by the parties, the AGENCY will deliver all vehicles to an AXON Installer, who will install and configure in each vehicle in accordance with the specifications detailed in the system's installation manual and its relevant addendum(s). Applicable in-car hardware will be installed and configured as defined and validated by the AGENCY during the pre-deployment discovery process.

If a specified vehicle is unavailable on the date and time agreed upon by the parties, AGENCY will provide a similar vehicle for the installation process. Delays due to a vehicle, or substitute vehicle, not being available at agreed upon dates and times may results in additional fees to the AGENCY. If the AXON Installer determines that a vehicle is not properly prepared for installation ("Not Fleet Ready"), such as a battery not being properly charged or properly up-fit for in-service, field operations, the issue shall be reported immediately to the AGENCY for resolution and a date and time for the future installation shall be agreed upon by the parties.

Upon completion of installation and configuration, AXON will systematically test all installed and configured in-car hardware and software to ensure that ALL functions of the hardware and software are fully operational and that any deficiencies are corrected unless otherwise agreed upon by the AGENCY, installation, configuration, test and the correct of any deficiencies will be completed in each vehicle accepted for installation.

Prior to installing the Axon Fleet camera systems, it is both the responsibility of the AGENCY and the AXON Installer to test the vehicle's existing systems' operation to identify, document any existing component or vehicle systems' failures. Prior to any vehicle up-fitting the AXON Installer will introduce the system's components, basic functions, integrations and systems overview along with reference to AXON approved, AGENCY manuals, guides, portals and videos. It is both the responsibility of the AGENCY and the AXON Installer to agree on placement of each components, the antenna(s), integration recording trigger sources and customer preferred power, ground and ignition sources prior to permanent or temporary installation of an Axon Fleet camera solution in each vehicle type. Agreed placement will be documented by the AXON Installer.

AXON welcomes up to 5 persons per system operation training session per day, and unless otherwise agreed upon by the AGENCY, the first vehicle will be used for an installation training demonstration. The second vehicle will be used for an assisted installation training demonstration. The installation training session is customary to any AXON Fleet installation service regardless of who performs the continued Axon Fleet system installations.

The customary training session does not ‘certify’ a non-AXON Installer, customer-employed Installer or customer 3rd party Installer, since the AXON Fleet products does not offer an Installer certification program. Any work performed by non-AXON Installer, customer-employed Installer or customer 3rd party Installer is not warrantied by AXON, and AXON is not liable for any damage to the vehicle and its existing systems and AXON Fleet hardware.

Standard Terms and Conditions

Axon Enterprise Inc. Sales Terms and Conditions

Axon Master Services and Purchasing Agreement:

This Quote is limited to and conditional upon your acceptance of the provisions set forth herein and Axon's Master Services and Purchasing Agreement (posted at www.axon.com/legal/sales-terms-and-conditions), as well as the attached Statement of Work (SOW) for Axon Fleet and/or Axon Interview Room purchase, if applicable. In the event you and Axon have entered into a prior agreement to govern all future purchases, that agreement shall govern to the extent it includes the products and services being purchased and does not conflict with the Axon Customer Experience Improvement Program Appendix as described below.

ACEIP:

The Axon Customer Experience Improvement Program Appendix, which includes the sharing of de-identified segments of Agency Content with Axon to develop new products and improve your product experience (posted at www.axon.com/legal/sales-terms-and-conditions), is incorporated herein by reference. By signing below, you agree to the terms of the Axon Customer Experience Improvement Program.

Acceptance of Terms:

Any purchase order issued in response to this Quote is subject solely to the above referenced terms and conditions. By signing below, you represent that you are lawfully able to enter into contracts. If you are signing on behalf of an entity (including but not limited to the company, municipality, or government agency for whom you work), you represent to Axon that you have legal authority to bind that entity. If you do not have this authority, please do not sign this Quote.

09.19.23 Exhibit C, Work Assignment No. 2, KC Regional WWTP Design, Between Kent County Department of Public Works and KCI Technologies, Inc., Preliminary Engineering Study to Relocate Millington WWTP

EXHIBIT C

WORK ASSIGNMENT NO. 2

PROJECT DESCRIPTION:

KENT COUNTY REGIONAL WWTP DESIGN

THIS WORK ASSIGNMENT TO THE ARCHITECTURAL/ ENGINEERING TEAM IDIQ MASTER CONTRACT AS EXECUTED BY AND BETWEEN THE KENT COUNTY DEPARTMENT OF PUBLIC WORKS AND **KCI TECHNOLOGIES, INC.** IS EFFECTIVE THIS 19th DAY OF **SEPTEMBER**, **2023** AND IS INCORPORATED THEREIN AS IF COPIED FULLY IN BOTH WORDS AND FIGURES AS A PART OF EXHIBIT C.

WHEREAS, the parties to the above stated CONTRACT are now desirous of implementing a Work Assignment or Work Assignment Revision thereunder; and,

WHEREAS, each of said parties represents that it continues to have authority to execute this Work Assignment and that all certifications previously made in said CONTRACT remain in effect;

NOW THEREFORE, the parties hereto do further contract and agree to add the following items of work to the above CONTRACT under the additional terms and conditions as are hereinafter stated:

SCOPE OF WORK FOR THIS WORK ASSIGNMENT

In 2022, Kent County commissioned KCI to perform a Preliminary Engineering study relocate the existing Town of Millington WWTP away outside of the flood zone and create a new regional WWTP to serve the Town of Millington and portions of the County's service area. The results of this study were documented in the "Kent County Regional WWTP Preliminary Engineering Report" dated December, 2022 (incorporated herein by reference). The study proposes a new WWTP located west of the Town, sized to accommodate 350,000 GPD initial flow, with an expansion planned to 600,000 GPD in the future as demand increases. Multiple treatment alternatives were considered, with Alternative #3 – Sequential Batch Reactor (SBR) being the recommended approach. This following scope of work is generally based on this recommended alternative and subsequent discussions with the County. The deliverables of the project include Plans, Technical Specifications, and Bid Documents suitable for distribution for a public solicitation of bids to construction the new facility, demolish/abandon the existing facility, and conveyance of existing flows to the new WWTP. KCI will assist the County to secure appropriate approvals and permits for the proposed construction activities as noted below. Major submittal milestones include 30%, 60%, 90% (permitting), and 100% completed documents.

See Attached Exhibit 1 for additional details.

EXHIBIT C

WORK ASSIGNMENT TERM

This Work Assignment shall be effective upon the latest date of execution hereof and continue for a period of 18 months from the Effective Date noted above.

Work shall commence within fifteen (15) calendar days after the receipt of a Notice to proceed.

WORK ASSIGNMENT CONTRACT AMOUNT

The COUNTY shall pay the CONTRACTOR for the performance of said work, subject to additions or deletions provided herein, **Seven Hundred Eighty-Five Thousand** Dollars (**$785,000.00**) in accordance with the cost proposal negotiated in good faith between the COUNTY and CONTRACTOR and attached as Exhibit 2.

Under no circumstances shall the Contract amount be exceeded without the signed approval of the COUNTY by means of a Work Assignment Revision.

Both parties hereby represent that they have authority to enter into Work Assignment No. 2 as Exhibit C of the CONTRACT executed by and between the Kent County Department of Public Works and **KCI TECHNOLOGIES, INC.**, which is now made a part of said CONTRACT.

Please see next page for signature lines.

EXHIBIT C

IN WITNESS WHEREOF, the parties hereto have executed, or caused to be executed by their duly authorized officials, this Contract in duplicate, on the date first above written.

Title

EXHIBIT 1 - SCOPE OF SERVICES

In 2022, Kent County commissioned KCI to perform a Preliminary Engineering study relocate the existing Town of Millington WWTP away outside of the flood zone and create a new regional WWTP to serve the Town of Millington and portions of the County's service area. The results of this study were documented in the "Kent County Regional WWTP Preliminary Engineering Report" dated December, 2022. The study proposes a new WWTP located west of the Town, sized to accommodate 350,000 GPD initial flow, with an expansion planned to 600,000 GPD in the future as demand increases. Multiple treatment alternatives were considered, with Alternative #3 – Sequential Batch Reactor (SBR) being the recommended approach. This following scope of work is generally based on this recommended alternative and subsequent discussions with the County. Scope of work includes modifications at the existing WWTP and Vanary Park PS to convey existing flows to the new WWTP.

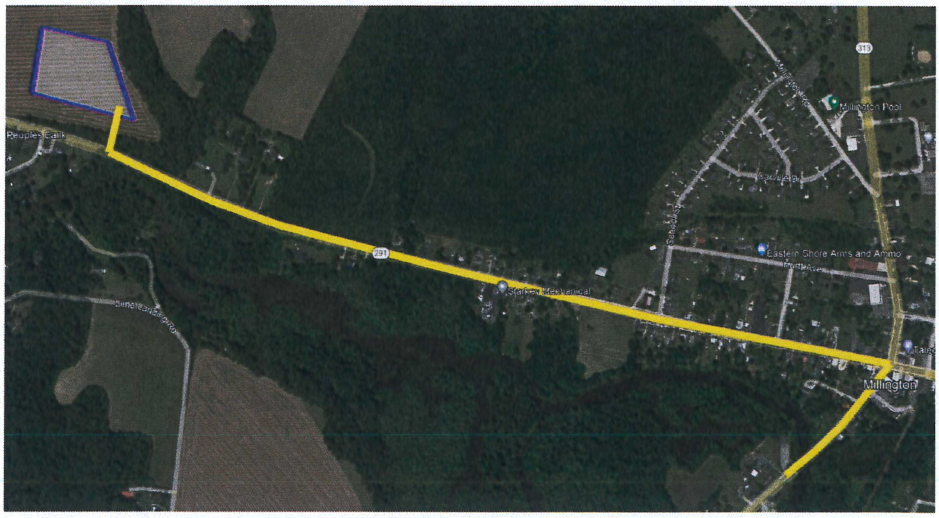

The deliverables of the project include Plans, Technical Specifications, and Bid Documents suitable for distribution for a public solicitation of bids to construction the new facility, demolish/abandon the existing facility, and conveyance of existing flows to the new WWTP. KCI will assist the County to secure appropriate approvals and permits for the proposed construction activities as noted below. Major submittal milestones include 30%, 60%, 90% (permitting), and 100% completed documents.

Process Design

Detailed process design shall be based on the selected alternative utilizing SBR technology for biological treatment and supporting unit processes as described in the PER. The new facility will be designed to reach Enhanced Nutrient Removal (ENR) limits. A new outfall will be required due to the relocation of the facility. This scope of work assumes that MDE will allow a discharge to the existing stream adjacent to the proposed WWTP site. If MDE requires discharge directly to the Chester River, additional effort may be required to design the road crossing, secure required easements, and design the river outfall structure. As part of this scope of work, KCI will coordinate with MDE to secure the required Construction Permit as well as assist the County so secure available funding through the SRF and ENR programs.

Survey

The exact location and boundary of the proposed WWTP facility will be coordinated with the County and stakeholders prior to field survey activities. KCI will utilize readily available data to create a conceptual facility layout including proposed structure and entrance. It is not anticipated that the overall acreage required will vary significantly from the figure below:

Once a specific area on the site is established, KCI will mobilize a survey team to perform a topographic survey the 7,000 LF +/- corridor shown below in yellow and the 6 Acre +/- area shown above. LiDAR Scanning technology will be utilized to 3D scan from the side of the road for the corridor section. The open field area will be measured by traditional means or Drone if field conditions permit. Field measurements will be processed, and contours will be shown with 1' intervals in the survey base drawing for the design team. Survey work will be referenced to MD SPC NAD83 horizontal and NAVD88 vertical datum by RTN GPS. The survey of existing easements or the creation of new easements or any drafting of plats associated with easements is not included in this scope of work.

The base drawing will also include a deed and plat mosaic of the project area. MD SHA Right-of-Way plats will be plotted where available within the project limits and individual deeds will be plotted only as needed in areas without MD SHA Right-of-Way plats available. The deeds and plats will be aligned based on deed call language (ex. center of road, side of road, along a road) on corners found along the road frontage as a tool to assess possible areas where no Right-of-Way exists. This scope of work is for the assessment of the existence of a public Right-of-Way and it does not include the determination of individual property boundaries. If areas are identified as possibly having no Right-of-Way in the deed and plat information or needing the Right-of-Way or individual parcel boundaries determined, additional survey work will be required, and additional scope and fee will need to be determined for each area based on size and complexity.

KCI will initiate Miss Utility Designer tickets for the project area and will include any information provided by the responding utility owners into the base drawing. KCI will not initiate utility field mark out tickets as recent laws consider that abuse of the system if not actually excavating.

No Maintenance-of-Traffic is included in this scope of work. If measurements are needed in the roadway beyond those the LiDAR units will scan from the North and South sides, Maintenance-of-Traffic may be needed, and an additional fee will be required.

Civil/Land Development

KCI will provide civil design services in association with the construction documents as well as professional services associated with the local land development approval processes. In preparation of this scope of work, KCI met with the County and corresponded with representatives of the planning department. The following provides our understanding of the requirements (attendance of meetings shall be at the direction/request of the County, if required):

Major Site Plan - Concept Plan/Special Exception Application

- Preparation of the Special Exception Application in accordance with Kent County requirements.
- Preparation of the Concept Plan in accordance with Kent County requirements;
- Submission of all Special Exception / Concept Plan level documents including necessary forms and applications;
- Attendance at the Technical Advisory Committee meeting to review the plan with the TAC;
- Attendance at the Planning Commission Meeting to review the plan with the Commission.
- Attendance at the Board of Appeals hearing to support the application.

Stormwater Management Concept Plan

- Preparation of a Stormwater Management Concept Plan in accordance with Kent County Requirements;
- Submission of all Stormwater Management Concept Plan level documents including necessary forms and applications. – this submission is required to accompany the Special Exception / Concept Plan submission.

Major Site Plan - Preliminary Plan / Final Plan

- Revision of the plan to address any comments generated by the Special Exception / Concept Plan review;
- Preparation of the Preliminary / Final Plan in accordance with Kent County requirements;
- Submission of all Preliminary / Final Plan level documents including necessary forms and applications;
- Attendance at the Technical Advisory Committee meeting to review the plan with the TAC;
- Attendance at the Planning Commission Meeting to review the plan with the Commission.

- Submission of approved Final Site Plan documents for signature and distribution by the County.
- Submission of Final Plan to the Critical Area Committee.

Site Development Plan

- Revision of the Stormwater Management Concept Plan to address any comments generated by the Concept Plan review;
- Preparation of the Site Development Plan in accordance with Kent County requirements;
- Submission of all Site Development Plan level documents including necessary forms and applications;
- Revision of the Site Development Plan in response to review comments though approval of the Site Development Plan by the County.

Erosion & Sediment Control Plan

- Preparation of the Erosion and Sediment Control Plan in accordance with Kent Soil and Water Conservation District requirements. This erosion and sediment control plan will include grading design and controls at the existing wastewater treatment plant site as necessary to support the demolition of the existing plant and construction of the new pump station.
- Submission of all Erosion and Sediment Control Plan level documents including necessary forms and applications;
- Revision of the Erosion and Sediment Control Plan in response to review comments as necessary through approval of the plan by Kent Soil and Water Conservation District.

Stormwater Pollution Prevention Plan (SWPPP)

- Preparation of the SWPPP in accordance with Maryland Department of the Environment (MDE) requirements;
- Submission of all SWPPP documents including necessary forms and applications;
- Revision of the SWPPP in response to review comments as necessary through approval of the plan by MDE.

Entrance Plan

- Preparation of the Entrance Plan in accordance with Maryland State Highway Authority requirements;
- Submission of all Entrance Plan level documents including necessary forms and applications;
- Revision of the Entrance Plan in response to review comments as necessary through approval of the plan by Maryland State Highway Authority.

Fire Department Approval

- Submission to the local fire department of Preliminary Plan level documents including necessary forms and applications;
- Revision of the Preliminary Plan in response to review comments as necessary through approval of the plan by the fire department.

Final Stormwater Management Plan

- Preparation of the Final Stormwater Management Plan in accordance with County requirements;
- Submission of all Final Stormwater Management Plan level documents including necessary forms and applications;
- Revision of the Final Stormwater Management Plan in response to review comments as necessary through approval of the plan by the County.

Supporting Disciplines:

KCI will provide professional services for supporting disciplines including architectural, structural, geotechnical, electrical, mechanical, plumbing, instrumentation and control as required to provide a completed design and construction document. Services shall be provided in accordance with applicable codes, regulations, and reasonable engineering judgement. Supporting disciplines will be incorporated into the design process and milestone submittals as appropriate. Not every discipline will be represented in the same level of detail at the 30% and 60% submittals. Some specific clarifications are provided below:

- Where possible, precast concrete structures will be utilized and detailed structural design shall be delegated to the supplier. It is assumed that the main SBR structure, flow equalization tank, and sludge holding tank will be precast construction.
- It is assumed several utility buildings may be pre-engineering metal structures with design delegated to the supplier.
- Electrical and Control design will include minor upgrades to the Vanary Park PS to accommodate new pumps, and a new pump station at the existing WWTP to convey existing flows to the new WWTP.
- Major treatment unit process equipment will utilize standard, manufacturer-supplied control systems. KCI will coordinate with these manufacturers to incorporate alarms and controls into a plant-wide SCADA system.
- Geotechnical investigation and reporting shall include subsurface investigation and recommendations for structural foundation design as well as soils characterization associated with stormwater management activities. Specific location, number, and depth of borings will be determined following conceptual design approval.

Schedule:

KCI understands that schedule is critical to the success of the overall project. Initial planning efforts identified a design period of 12 months with an additional 6 months of permitting/funding agency coordination. Due to the nature of the project, funding agency coordination and permitting activities will be ongoing throughout the design phase where appropriate. The 12-month design duration is based primarily on the MDE construction permit approval process. Additional permitting approvals may occur during the MDE review process prior to the Bid Document Preparation. Final funding approvals may occur subsequent to the Bid Documents being finalized.

Based on this approach, the following provides an estimated milestone submittal schedule:

30% Conceptual Design (Process Selection/Layout, Site Layout, Proposed Equipment List)	(3 Months)	December 2023
60% Design (~50% Structural, Electrical, Mechanical, Architectural, I/C)	(5 Months)	May 2024
90% Design (MDE Construction Permit Submittal)	(4 Months)	September 2024
100% Bid Documents	(4 Months)	January 2025

EXHIBIT 2
Kent County Regional WWTP Design

Discipline/Task Item	Estimated Fee
Process Design Based on Alternative #3 of PER Dated December 2022	$ 250,000.00
Survey Includes FM Alignment and WWTP Parcel	$ 50,000.00
Civil Design and Land Development Approvals Local land development approvals required per Exhibit 1	$ 150,000.00
Mechanical, Electrical, Plumbing	$ 112,000.00
Instrumentation and Control Manufacturer Standard Panels where possible	$ 42,000.00
Structural Precast/Delegated Design for Major Process Structures	$ 36,000.00
Geotechnical investigation Estimated borings with final TBD	$ 30,000.00
Architectural	$ 50,000.00
Project Management	$ 65,000.00
Based Design Subtotal	**$ 785,000.00**

* Total fee not to exceed unless authorized by the County

PUBLIC NOTICE

The County Commissioners of Kent County, Maryland, do hereby provide public notice that on September 18, 2023, at 5:00 p.m., there will be a five-county joint meeting of the legislative bodies of Dorchester, Talbot, Queen Anne's, Kent, and Caroline Counties. The meeting is open to the public. Citizens may call 1-872-239-8359, dial id # 143537572, and press # to observe the public meeting.

The purpose of the meeting will be primarily to discuss budgetary matters concerning Chesapeake College, and any other matters that each county chooses to discuss.

By order of:

THE COUNTY COMMISSIONERS
OF KENT COUNTY, MARYLAND
Sondra M. Blackiston
Clerk

09.15.22 Posted on the County website and sent to agenda notification group via email.

Description

Press Release Choptank Health Mobile Health Chestertown 2023

FOR IMMEDIATE RELEASE

Contact: Lucie Hughes, Director of Communication
Choptank Community Health System
410-479-8394, lhughes@choptankhealth.org

(Chestertown, Maryland – September 12, 2023)

Choptank Health Mobile Unit now in Chestertown

Choptank Community Health System is bringing its mobile healthcare unit to Chestertown to help serve people in Kent County. The initiative is made possible through a partnership with Choptank Health, the Town of Chestertown, and the Chestertown Police Department. The mobile unit will be used to provide medical, behavioral health, and dental services to communities in Kent County.

The Chestertown Police Department at 601 High St. will house the mobile health unit while not out in Kent County delivering health care to residents. Services will be provided while the unit is out in the community and not from the unit in the parking lot.

“Choptank Health is very thankful for this opportunity to connect healthcare with our communities and local agencies,” said Choptank Health President and CEO Sara Rich. “We are especially grateful for Councilman Herz’s help while we were exploring the best places to call home for our mobile unit.”

“The search criteria included having a secure location for overnight parking and accessibility to electricity to recharge the unit’s instrumentations,” said Chestertown Council Ward 2 Member Thomas A. Herz, Jr. “The Chestertown Police Department fits the criteria, and is centrally located, which is an added bonus.”

Rich says this is their third mobile health unit and expands Choptank Health’s capability to truly meet its patients where they are. Other units are used during the school year to provide school-based medical and dental services and as a platform for Choptank Health’s migrant program team to visit various farms, agricultural nurseries, and crab houses across the Shore.

“Choptank Health is an essential community partner in delivering healthcare to people in Chestertown and those living in rural areas of the entire Mid-Shore region,” said Chestertown Mayor David Foster. “We felt it was essential to support the operations of their mobile unit to help break down barriers to healthcare while supporting the health of residents in our community.”

“Helping Choptank Health provide healthcare to people in our rural communities is important,” said Chestertown Police Department Chief Ronald M. Dixon. “We’re glad to have the opportunity to support their work and our community in this meaningful way.”

Choptank Community Health System provides medical, dental, and School-Based health services to more than 30,000 adults and children in Caroline, Dorchester, Kent, Queen Anne’s, and Talbot counties, with a mission to provide access to exceptional, comprehensive, and integrated healthcare for all. Medical services include primary healthcare, women’s health, pediatrics, behavioral health, chronic health management, and care navigation, with new medical patients welcome. More information is at www.choptankhealth.org.
